Application Guidelines

1. **Send your completed application and supplemental material by email. If sending scans, please ensure legibility.**
2. **Your application and both of your essays must be typed.**

Here are some suggestions to help you complete an application:

- ✓ Read the directions and the entire application before you begin.
- ✓ Write all responses on another piece of paper first, or copy the blank application and fill it out in pencil. Once you are satisfied with all your answers, type the information onto the original application. Copy the completed form and save it for your records. The copy will be there for you to refer to when completing other applications, and you will have it in case you need to send a replacement copy.
- ✓ Give yourself plenty of time to gather all information needed.
- ✓ Select your reference carefully. Choose people who really know you and who are willing to complete the reference form on time. If appropriate, you could ask your Gold Award Project Advisor to serve as a reference, although this is not required. It is more important for this person to really know you rather than being well known or involved in your Gold Award project themselves. Allow the person you ask to be your reference enough time to complete the form and return it to you.
- ✓ When writing your essay, remember to use correct grammar, punctuation, and spelling. All work should be your own original writing. However, after you complete your essay, ask someone you know to read it and suggest corrections. This could be a parent, a teacher, or a friend whose opinion you value.
- ✓ When providing information about yourself, remember the acronym: S.A.L.T. This stands for Scholarship, Achievement, Leadership, and Teamwork. Sharing what you have accomplished or experienced in each of these areas will give others a good idea about who you are.
