

The Mobile STEM Experience Center is ready to hang out with your troop!

Leave the planning up to our expert program specialist.

Choose from one of our STEM-ulating programs!

Fossil Finder

Become a paleontologist by learning about fossil formation, geology, and dig up real fossils.

Mystery Matters

You've heard of solids, liquids, and gases, but get to know about a state of matter in between.

Binary Boss

Explore computer coding concepts with fun coding activities.

Engineering and Beyond

Design, create and discover ways to improve roller coasters, fling flyers, and more.

Pearl Party

Fall in love with gemology while uncovering facts about the legendary gem of Girl Scouts.

See It, Be It

Explore the ways STEM Careers help others in and around your community.

Cosmonaut

Take an imaginary trip out of this world on a quest to explore space like a scientist!

Electrifying Experiments

Explore circuitry and cool ways to bring objects around you to life.

Robo Girls

Explore ways to solve problems with simple machines and robots.

DNA Detective

Explore biology and lab equipment with a fun DNA extraction lab.

We are currently delivering STEM-focused programs in select areas in Central Texas.
