

Smart Cookies – Girl Registration

Step 1 – Receive an email invitation just prior to Girl Scout Cookie Program launch

- An email with the link for registering the girl will be sent to the caregiver after the girl has been entered into her troop in the Smart Cookies platform by the council.
- Click on the link to start the registration process.
- Each girl must have a unique account. For example, two girls cannot share the same account. Girl Scouts will setup a unique username and password.
- Please confirm that your Girl Scout is registered for the current membership year. Only registered Girl Scouts with a trained troop cookie coordinator will receive a link to setup their account.

*Check with your troop leader if you do not receive a registration email.

Step 2 – Complete Registration Page

- Mandatory fields are marked with an asterisk.
- The girl registration page shows the option to allow girl delivery on the social media link. This is a mandatory field that must be answered during the registration process. The parent can change the option after registration by editing the field on the Girl Scout's profile page

Step 3- Decide if your Girl Scout will be opting into the Social Link Girl Delivered

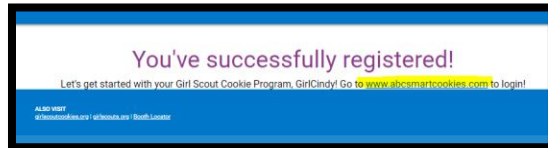

This feature will add the option for girl delivered orders to be placed via the social media link.

Opt-in for Social Link Girl Delivery Order *

Yes No

Registration Complete!

- Turn on/off the social link at any time on her profile page. When turned off, any links that have been previously posted will not allow the girl delivery option.
